American-Type Options Dmitrii S. Silvestrov,2015-03-03 The book gives a systematical presentation of stochastic approximation methods for discrete time Markov price processes. Advanced methods combining backward recurrence algorithms for computing of option rewards and general results on convergence of stochastic space skeleton and tree approximations for option rewards are applied to a variety of models of multivariate modulated Markov price processes. The principal novelty of presented results is based on consideration of multivariate modulated Markov price processes and general pay-off functions, which can depend not only on price but also an additional stochastic modulating index component, and use of minimal conditions of smoothness for transition probabilities and pay-off functions, compactness conditions for log-price processes and rate of growth conditions for pay-off functions. The volume presents results on structural studies of optimal stopping domains, Monte Carlo based approximation reward algorithms, and convergence of American-type options for autoregressive and continuous time models, as well as results of the corresponding experimental studies.

Tense and Aspect in Han Period Chinese Barbara Meisterernst,2014-12-12 Many grammatical issues of Archaic and Medieval Chinese still lack a comprehensive analysis. The book provides the first thorough investigation of the syntactic and semantic constraints of the linguistic categories tense and aspect and their relation with the lexical aspect of the verb in Han period Chinese. The author uncovers fascinating details of a language with a highly restricted verbal morphology.

Resilience of Informal Areas in Megacities - Magnitude, Challenges, and Policies Mohsen M. Aboulnaga,Mona F. Badran,Mai M. Barakat,2021-12-16 This book focuses on the socio-economic and sustainability challenges facing megacities in dealing with the dramatic population increases of informal areas and settlements (or slums), especially when coupled with the impacts and risks of climate change. The authors examine informal urban areas globally and in developing countries utilizing strategic environmental assessment (SEA) as a tool to solve the sequence of upgrading steps concerning slums and shanty towns, and also establish essential guidelines for local governments and stakeholders to create a balance and quality of life for slums dwellers, particularly in the age of the COVID-19 pandemic, through applying sustainability indicators that enhance the upgrading process. Coverage includes recent statistics and mapping of informal areas worldwide and assessment of the GIZ and Sir Norman Foster models in terms of energy demands and consequential emission of CO₂ and air pollution from slums. Three models of Maspero's Triangle are also studied and assessed. The book is essential reading for a

wide range of researchers, students, policymakers, governments, and professionals as well as a good source for research centers and academicians working in energy, climate change, urban environments, and sustainable urban development.

Anastasios Sinaites Karl-Heinz Uthemann,2015-04-24 Lange galt eine umfassende Untersuchung zu Anastasios Sinaites (7./8. Jh.) als Desiderat. Auf der Basis der seit 1981 erschienenen Editionen legt Karl-Heinz Uthemann hier erstmals eine ausführliche Analyse von Anastasios' Hauptwerk (Hodegos) vor und stellt auf der Basis seiner christologischen Schriften dessen Verständnis vom Bekenntnis von Chalkedon (451) dar. Dabei wird stets auf den Zusammenhang der christologischen Debatten dieser Zeit wertgelegt. Der zweite Teil widmet sich Anastasios als Prediger und Apologet gegenüber Islam und Judentum, wobei sowohl nicht edierte Texte als auch die frühe Wirkungsgeschichte seiner *Dialexis adversus Iudaeos* berücksichtigt werden. Überblicke über Editionen, Überlieferungs- und Wirkungsgeschichte kleinerer Schriften des Anastasios Sinaites runden dieses Buch ab.

Death of a New American Mariah Fredericks,2019-04-09 *Death of a New American* by Mariah Fredericks is the atmospheric, compelling follow-up to the stunning debut *A Death of No Importance*, featuring series character, Jane Prescott. In 1912, as New York reels from the news of the Titanic disaster, ladies' maid Jane Prescott travels to Long Island with the Benchley family. Their daughter Louise is to marry William Tyler, at their uncle and aunt's mansion; the Tylers are a glamorous, storied couple, their past filled with travel and adventure. Now, Charles Tyler is known for putting down New York's notorious Italian mafia, the Black Hand, and his wife Alva has settled into domestic life. As the city visitors adjust to the rhythms of the household, and plan Louise's upcoming wedding, Jane quickly befriends the Tyler children's nanny, Sofia—a young Italian-American woman. However, one unusually sultry spring night, Jane is woken by a scream from the nursery—and rushes in to find Sofia murdered, and the carefully locked window flung open. The Tylers believe that this is an attempted kidnapping of their baby gone wrong; a warning from the criminal underworld to Charles Tyler. But Jane is asked to help with the investigation by her friend, journalist Michael Behan, who knows that she is uniquely placed to see what other tensions may simmer just below the surface in this wealthy, secretive household. Was Sofia's murder fall-out from the social tensions rife in New York, or could it be a much more personal crime?

HS Codes for fisheries and aquaculture products Food and Agriculture Organization of the United Nations ,World Customs Organization,2023-06-29 This publication, developed by the Food and Agriculture Organization of the United Nations (FAO), with the active support of the World Customs Organization (WCO), builds on the Harmonized System: Nomenclature 2022 edition. It presents all possible classifications for fisheries and aquaculture products by species, with a full description of each HS code, to facilitate its use within the fisheries sector, including aquaculture. This publication does not modify the structure of the HS or modify species grouping, as it is an auxiliary tool to facilitate classification and enhance

understanding of the HS system from the angle of fisheries and aquaculture products. This publication is divided into three sections: (1) the first section presents all species which are directly referenced in the HS, with commodity codes for all possible classifications of their products and treatments; (2) the second section lists all HS codes for fisheries and aquaculture products with an exhaustive and comprehensive description of each code; and (3) the third section is a new section of the HS Handbook, where photos of the most commercially important species are shown. Each image contains relevant information and singularities of each species - scientific name, FAO names, main characteristics, and distribution.

Death of an American Beauty Mariah Fredericks,2020-04-14 Death of an American Beauty is the third in Mariah Fredericks's compelling series, set in Gilded Age New York, featuring Jane Prescott. Jane Prescott is taking a break from her duties as lady's maid for a week, and plans to begin it with attending the hottest and most scandalous show in town: the opening of an art exhibition, showcasing the cubists, that is shocking New York City. 1913 is also the fiftieth anniversary of Lincoln's Emancipation Proclamation speech, and the city's great and good are determined to celebrate in style. Dolly Rutherford, heiress to the glamorous Rutherford's department store empire, has gathered her coterie of society ladies to put on a play—with Jane's employer Louise Tyler in the starring role as Lincoln himself. Jane is torn between helping the ladies with their costumes and enjoying her holiday. But fate decides she will do neither, when a woman is found murdered outside Jane's childhood home—a refuge for women run by her uncle. Deeply troubled as her uncle falls under suspicion and haunted by memories of a woman she once knew, Jane—with the help of old friends and new acquaintances, reporter Michael Behan and music hall pianist Leo Hirschfeld—is determined to discover who is making death into their own twisted art form.

Eleanor Roosevelt, Fighter for Justice Ilene Cooper,2018-08-07 Eleanor Roosevelt, Fighter for Justice shows young readers how the former First Lady evolved from a poor little rich girl to a protector and advocate for those without a voice. Though now seen as a cultural icon, she was a woman deeply insecure about her looks and her role in the world. But by recognizing her fears and constantly striving to overcome her prejudices, she used her proximity to presidents and her own power to aid in the fight for Civil Rights and other important causes. This biography gives readers a fresh perspective on her extraordinary life. It includes a timeline, biography, index, and many historic photographs.
