Thermal Conductivity Terry M. Tritt,2006-10-03 It has been almost thirty years since the publication of a book that is entirely dedicated to the theory, description, characterization and measurement of the thermal conductivity of solids. The recent discovery of new materials which possess more complex crystal structures and thus more complicated phonon scattering mechanisms have brought innovative challenges to the theory and experimental understanding of these new materials. With the development of new and novel solid materials and new measurement techniques, this book will serve as a current and extensive resource to the next generation researchers in the field of thermal conductivity. This book is a valuable resource for research groups and special topics courses (8-10 students), for 1st or 2nd year graduate level courses in Thermal Properties of Solids, special topics courses in Thermal Conductivity, Superconductors and Magnetic Materials, and to researchers in Thermoelectrics, Thermal Barrier Materials and Solid State Physics.

Disabled Bodies in Early Modern Spanish Literature Encarnación Juárez-Almendros,2017-12-31 This study examines the concepts and role of women in selected Spanish discourses and literary texts from the late fifteenth to seventeenth centuries from the perspective of feminist disability theories, concluding that paradoxically, femininity, bodily afflictions, and mental instability characterized the new literary heroes at the very time Spain was at the apex of its imperial power.

Neoliberalism in Context Simon Dawes,Marc Lenormand,2019-11-23 Neoliberalism in Context adopts a processual, relational and contextual framework, bringing together contributions from diverse national and disciplinary contexts, and bridging theoretical and methodological approaches to critiquing neoliberalism. The book presents arguments on the extent to which we are still living in neoliberal times, and illustrates examples of variation in the practice of neoliberalization and within neoliberal thought. The contributions also examine the mediation and significance of existing neoliberalism on subjectivity, and address the consequences of the neoliberalization of education for critical thinking generally, and for the

critique of neoliberalism in particular. This collection will be of interest to students and scholars across sociology, international relations, urban studies, and media and cultural studies. Helping Howard Sally Schloss, 2021-09 From the moment the Author hustles Howard out of bed and into the kitchen to make breakfast, we know we're on a literary adventure like no other. The Author wants her story; Howard wants to understand who he is and what he's done with his one wild and precious life. By turns comic, poignant, lacerating and profound, *HELPING HOWARD* probes the complex and ever-changing nature of love, and seeks to understand, in the deepest way possible, the ties that bind. Schloss has written a remarkable story; hers is a nimble, inventive and wholly original voice. -Kitty Zeldis, author of *Not Our Kind* What a gorgeous novel! Romantic, deeply humane, astonishingly clever and moving - this is a love story between author and character that continually makes one gasp, even as it delivers great truths. Thank you, Sally Schloss, for writing it. -Bonnie Friedman, bestselling author of *Writing Past Dark* In Sally Schloss's insightful and engrossing novel, an Author writes a novel while regularly checking in with its real-life titular character. Howard is a kind and singularly tolerant man who has greatly compromised himself within his marriage. He nervously waits as the Author unveils each new phase of his life. Their ongoing conversation affords Howard-and the reader-a unique chance to see how his choices have at once enriched and undermined him. Schloss's writing is meticulous. -Patricia Grossman, author of *Radiant Daughter*. For those of you who delve into transactional dynamics as a profession this book is a fascinating must read. The characters engage in the all too typical tendencies of repeating the same patterns of behavior, thoughts, and feelings with their inevitable undesirable outcomes. The book sympathetically dramatizes how these underlying negative core beliefs affect these characters' lives over the course of their thirty-five-year marriage. -Robert Pazulinec Ed.D. Licensed Psychologist --- *Helping Howard* explores the fraught lifetime marriage of a straight older man, his younger gay wife, and the daughter that survives them. An anti-romantic romance, this book tells the tale of The Author who awakens Howard into consciousness in order to become her accomplice in figuring out what happens next. Their ongoing dialogue pushes the story forward through quarrelsome, humorous, psychological cliffhangers. Playing with, and exposing, the creative process adds another dimension to the narrative as The Author creates a relationship with her main character, which in turn, reflects on who she is. *Helping Howard* is about people struggling with understanding their own barriers to achieving and sustaining intimacy. It's a complex story of human longing and unmet desire.

The Only Woman in the Room Marie Benedict, 2019-01-08 THE NEW YORK TIMES BESTSELLER THE USA TODAY BESTSELLER Bestselling author Marie Benedict reveals the story of a brilliant woman scientist only remembered for her

beauty. Her beauty almost certainly saved her from the rising Nazi party and led to marriage with an Austrian arms dealer. Underestimated in everything else, she overheard the Third Reich's plans while at her husband's side and understood more than anyone would guess. She devised a plan to flee in disguise from their castle, and the whirlwind escape landed her in Hollywood. She became Hedy Lamarr, screen star. But she kept a secret more shocking than her heritage or her marriage: she was a scientist. And she had an idea that might help the country fight the Nazis and revolutionize modern communication...if anyone would listen to her. A powerful book based on the incredible true story of the glamour icon and scientist, *The Only Woman in the Room* is a masterpiece that celebrates the many women in science that history has overlooked.
